Dear Mr Abugov!

On behalf of the entire team of Cosmoscow, the international contemporary art fair, I express our sincere gratitude for your personal and the Foundation A' full wide support to the fair.

Contemporary Art Fair is a platform for cultural dialogue in Russia and your input cannot be overestimated. Your kind support let us realize numerous non-profit projects, such as Cosmoscow Artists' Patron Programme aimed to support young artists.

Thanks to your patronship, the artworks of Evgeniy Antufiev were presented at Cosmoscow edition 2016 and were highly appreciated by both Russian-speaking and international art professionals, gallerists, art collectors, and the visiting public.

We recognize and appreciate your generous contribution into organization of Boris Andrianov' concert, which has become one of the most exciting events of Cosmoscow 2016.

Moreover, a special project by video artist and independent filmmaker Eugene Granilshchikov was created for this event, and became a unique collaboration and visuals for the concert of Boris Andrianov.

We believe, the promotion of young artists projects is an important step in supporting contemporary art and the formation of a new environment in Russia.

We are happy you share our values and aspirations.

With gratitude and best regards,

Margarita Pushkina
